Diversity and Distributions

Volume 9, Issue 1, January 2003

Biodiversity Research

1 R. K. Swihart, T. M. Gehring, M. B. Kolozsvary and T. E. Nupp: Responses of 'resistant' vertebrates to habitat loss and fragmentation: the importance of niche breadth and range boundaries

19 P. J. Bellingham and D. A. Coomes: Grazing and community structure as determinants of invasion success by Scotch broom in a New Zealand montane shrubland

29 R. W. Piper and S. G. Compton: Subpopulations of *Cryptocephalus* beetles (Coleoptera: Chrysomelidae): geographically close but genetically far

43 A. Burke, K. J. Esler, E. Pienaar and P. Barnard: Species richness and floristic relationships between mesas and their surroundings in southern African Nama Karoo

55 J. C. Nekola: Large-scale terrestrial gastropod community composition patterns in the Great Lakes region of North America

73 H. Lu, and K.-B. Liu: Morphological variations of lobate phytoliths from grasses in China and the south-eastern United States

Volume 9, Issue 2, March 2003

Special Issue: Amphibian declines: Untangling the complexity

Guest Editor: Andrew Storfer

89 J. P. Collins and A. Storfer: Global amphibian declines: sorting the hypotheses

99 L. B. Kats and R. P. Ferrer: Alien predators and amphibian declines: review of two decades of science and the transition to conservation

111 C. Carey and M. A. Alexander: Climate change and amphibian declines: is there a link?

123 A. R. Blaustein, J. M. Romansic, J. M. Kiesecker and A. C. Hatch: Ultraviolet radiation, toxic chemicals and amphibian population declines

141 P. Daszak, A. A. Cunningham and A. D. Hyatt: Infectious disease and amphibian population declines

151 A. Storfer: Amphibian declines: future directions

Bibliodiversions

165 Eyewitnesses to History? (reviewed by K. R. Lips)

166 THE book on Costa Rica's herpetofauna for decades to come (reviewed by M. L. Crump)

Volume 9, Issue 3, May 2003

Biodiversity Research

169 N. A. Rossiter, S. A. Setterfield, M. M. Douglas and L. B. Hutley: Testing the grass-fire cycle: alien grass invasion in the tropical savannas of northern Australia

177 A. Pyšek, P. Pyšek, V. Jarošík, M. Hájek and J. Wild: Diversity of native and alien plant species on rubbish dumps: effects of dump age, environmental factors and toxicity

191 M. Rouget, R. M. Cowling, R. L. Pressey and D. M. Richardson: Identifying spatial components of ecological and evolutionary processes for regional conservation planning in the Cape Floristic Region, South Africa

211 J. T. Hunter: Factors affecting range size differences for plant species on rock outcrops in eastern Australia

221 D. Ferrer-Castán and O. R. Vetaas: Floristic variation, chorological types and diversity: do they correspond at broad and local scales?

237 S. Rose and A. Grainger: Multivariate mapping of spatial variation in biodiversity in Peruvian Amazonia

Bibliodiversions

251 On the road to understanding: from John Wyndham to reality (reviewed by P. Pyšek)

Volume 9, Issue 4, July 2003

Biodiversity Research

253 J. E. Keeley: Relating species abundance distributions to species-area curves in two Mediterranean-type shrublands

261 R. Mátics: Direction of movements in Hungarian Barn Owls (*Tyto alba*): gene flow and barriers

269 E. Froufe, S. Alekseyev, I. Knizhin, P. Alexandrino and S. Weiss: Comparative phylogeography of salmonid fishes (Salmonidae) reveals late to post-Pleistocene exchange between three now-disjunct river basins in Siberia

283 A. Chiarucci, N. J. Enright, G. L. W. Perry, B. P. Miller and B. B. Lamont: Performance of nonparametric species richness estimators in a high diversity plant community

297 A. L. Mayer and G. N. Cameron: Landscape characteristics, spatial extent, and breeding bird diversity in Ohio, USA

313 C. E. Manrique, R. Durán and J. Argáez: Phytogeographic analysis of taxa endemic to the Yucatán Peninsula using geographic information systems, the domain heuristic method and parsimony analysis of endemicity

Bibliodiversions

331 The costs of biological invasions (reviewed by P. Binggeli)

332 Sonoran Desert invasions under the spotlight (reviewed by D. M. Richardson)

333 A plant manual for the California deserts (reviewed by E. Dean)

Volume 9, Issue 5, September 2003

Biodiversity Research

335 B. Garrido, A. Hampe, T. Marañón and J. Arroyo: Regional differences in land use affect population performance of the threatened insectivorous plant *Drosophyllum lusitanicum* (Droseraceae)

351 G. Brehm, J. Homeier and K. Fiedler: Beta diversity of geometrid moths (Lepidoptera: Geometridae) in an Andean montane rainforest

367 I. Charalambidou, H. A. M. Ketelaars and L. Santamaría: Endozoochory by ducks: influence of developmental stage of *Bythotrephes* diapause eggs on dispersal probability

375 A. Burke: Inselbergs in a changing world — global trends

385 J. C. Rodgers III and K. C. Parker: Distribution of alien plant species in relation to human disturbance on the Georgia Sea Islands

399 J. Van Buskirk: Habitat partitioning in European and North American pond-breeding frogs and toads

Bibliodiversions

411 Flora Europaea on CD-ROM (reviewed by D. Henman)

412 A remarkable flora, expertly described and beautifully illustrated (reviewed by R. Cowling)

Volume 9, Issue 6, November 2003

Biodiversity Research

415 C. Scherber, M. J. Crawley and S. Porembski: The effects of herbivory and competition on the invasive alien plant *Senecio inaequidens* (Asteraceae)

427 T. Wernberg, G. A. Kendrick and J. C. Phillips: Regional differences in kelp-associated algal assemblages on temperate limestone reefs in south-western Australia

443 J.-P. Kopelke, J. Amendt and K. Schönrogge: Patterns of interspecific associations of stem gallers on willows

455 A. Ferrer and G. S. Gilbert: Effect of tree host species on fungal community composition in a tropical rain forest in Panama

469 K. X. Ruthrof, W. A. Loneragan and C. J. Yates: Comparative population dynamics of *Eucalyptus cladocalyx* in its native habitat and as an invasive species in an urban bushland in south-western Australia

Bibliodiversions

485 Biological Invasions in Europe (reviewed by K. Dehnen-Schmutz and M. Williamson)

486 Worthwhile reading on global change biology (reviewed by J. Kerr)

487 Beautiful Lichens (reviewed by S. Hammer)

488 From synteny to synergy — saving plant genetic resources for posterity (reviewed by J. Bailey)

489 Plant invasion ecology — coming of age? (reviewed by D. M. Richardson)
